

Director's Report June 2020

- A. **Summer Reading** – the COVID-19 time capsule handouts were a huge hit. We handed out over 55 packets along with some free kids books.
- B. **PIDL Podcasts** – Anne and Garrison have done a few podcasts, “Gardening with Gary.” They have been shared on social media and will be uploaded to our website.
- C. **Millage** – millage flyers have been ordered and billed to the Presque Isle District Library Foundation.
- D. **Layoffs** – called a few of part-timers back, case by case scenario.
- E. **Opening** – June 8th curbside, with limited days/hours in Rogers City due to staffing. Grand Lake will run as ‘winter hours’ and the others will remain the same. We will run curbside for the first few weeks and then come together as staff to see about opening to a limited number of patrons. Computer and Conference Rooms are on not available for an extended period of time.
- F. **Grass Complaints** – we have had several complaints on our grass in Grand Lake and Posen...after discussion with John’s Lawn Care, we agreed that lawn care businesses also had limitations and new rules/regulations. They are all behind and have had to contact their patrons on scheduling etc. The public needs to be patient and let company’s get back to work in their own timely manner with proper safety protocols for all involved.
